

# TW R-454B Model Series Residential Water to Water Heat Pumps

Engineering  
Submittal  
Sheet

# BOSCH

## Overview and Certifications

- ▶ 2-5 and 10 ton capacities
- ▶ High efficiency two-stage scroll compressors
- ▶ Dual density compressor blankets provide quiet operation
- ▶ Durable, high quality, pre-painted galvanized steel cabinet
- ▶ Low GWP ready (R-454B refrigerant)

## Standard Features, Factory Installed Options, and Field Install Accessories

### Standard Features

- ▶ **Two Stage**
  - Scroll compressors
- ▶ **Unit Configuration**
  - Copper or cupro-nickel source side coax coil
  - Front water connections (2-5 ton)
  - Rear water connections (10 ton)
  - Copper load side coax coil
  - Insulated coaxial heat exchangers and refrigerant piping
  - Single point electrical connections
- ▶ **1/2" Dual Density Fiber Insulation**
  - 1.5 lb.cu.ft. density micromat fiberglass insulation for both thermal and noise reduction
  - Non-combustible, non-hydroscopic and does not support fungal growth
  - Meets NFPA 90A and 90B for fire protection
  - Meets the GREENGUARD Indoor Air Quality Standard
  - Multi-density sound compressor blanket
- ▶ **Compressors**
  - Floating compressor base pan for quiet operation
  - Scroll type compressors on all sizes
- ▶ **TXV (Thermal Expansion Valve)**
  - Improves refrigerant management and efficiencies
- ▶ **Reliability - Durability – Serviceability**
  - Alert communicating circuit board
  - Schrader access ports
  - High & low pressure switches
  - Lockout circuit
  - Unit protection module (UPM) standard on all models
- ▶ **Electronic Circuit Board UPM**

The electronic circuit board provides protection with:

  - Random start of unit
  - Anti-short cycling (5 minute delay)
  - Alarm communicating output
  - Low pressure switch bypass at cold water start up
  - It also monitors and communicates standard safety features/ alerts/ operation/ protection:
    - Low pressure switch
    - High pressure switch
    - Evaporator freeze protection
    - Water coil freeze switch
  - This circuit board can communicate with a Bosch thermostat that alerts the customer of adverse conditions.
- ▶ **75 VA Transformer**
- ▶ **Standard Warranty**
  - 10 year all parts limited warranty
  - 10 year labor limited warranty
- ▶ For full warranty details:  
<https://www.bosch-homecomfort.com/us/en/residential/service/product-warranty-library/heat-pump-geothermal-warranty-documents/>

Standard Features, Factory Installed Options, and Field Install Accessories

**Factory Installed Options**

- ▶ **Cupro-Nickel Coil:**
  - Recommended in conditions anticipating moderate scale formation or in brackish water (available on source-side).
- ▶ **Domestic Hot Water Heat Recovery Package (HRP):**
  - Utilizes the compressor's superheated discharge gas to preheat domestic hot water.
  - The HRP reduces the amount of electricity or fossil fuels otherwise used for hot water.
- ▶ **Unit Protection Module (UPM)**
  - Low pressure switch protection
  - High pressure switch protection
  - Alarm output
  - Anti-short cycling
  - Compressor minimum run time (5 minutes)
  - Low pressure bypass at start up (2 minute delay)
  - Random start of unit
  - Brownout protection
  - Water coil/coaxial coil/condenser freeze protection

**Field Installed Options**

- ▶ **Swivel Water Connections**
  - 3/4" or 1" FPT swivel water connection
- ▶ **Pump/Valve Relay Kit**
  - This relay is used to energize a supply pump or solenoid valve when there is a call for compressor operation. This relay can be used to switch either high or low voltage power.
- ▶ **Flow Proving Switch (DPS)**
  - Shuts down the WSHP before unit can go into hard lockout faults due to water flow issues (ie. high head pressure, etc.)
  - Building managers and homeowners alike do not have to manually reset the WSHP by entering tenant space or private residence.
- ▶ **SmartStart Assist Kit**
  - An option which provides a means of reducing inrush currents at compressor startup. Light flickering is eliminated, and a smooth start is achieved (only available on scroll compressor models).
- ▶ **Stainless Steel Hose Kits**
  - Available in various lengths and diameters depending on the need for your application.
- ▶ **Flow Center Kits**
  - Built for easy installation and are available in a wide variety of combinations.
  - 10 year limited warranty. For full warranty details: <https://www.bosch-homecomfort.com/us/en/residential/service/product-warranty-library/heat-pump-geothermal-warranty-documents/>

## Control Options

### Control Options

There are two main choices when designating controllability for the water-to-water models. There is either a factory installed unit mounted controller (UMC) or an option for integration with a field supplied remote mounted controller (RMC). Regardless of the controls selected every unit will come with a factory installed unit protection module (UPM).

► **Unit Mounted Controller (UMC):**

Designed to enhance the unit operation with more flexibility, accurate control and operating models. The unit mounted controller provides an increased level of comfort in the conditioned space together with solid-state reliability and ease of operation. When UMC is used, freeze protection is set from the factory at 40° F. Some functionality of our proven UPM module are incorporated into the unit mounted controller for unit protection. The unit mounted controller is available on all Bosch Thermotechnology water-to-water units.

- Tactile touchpad for temperature and mode adjustment.
- Digital display of temperature in either degrees Fahrenheit or Celsius.
- LED display provides indication for unit operating mode and fault indication for high or low pressure lockout.
- Adjustable temperature set point from 60° F through 80° F (15.5° C through 26.7° C ).
- Adjustable Temperature Differential between 1° F and 10°F (0.6° C and 5.6° C).
- Selectable Options:
  - Manual/automatic changeover
- Additional Features
  - 5 minute anti-short cycling delay
  - Random start
  - 120 second low pressure bypass timer prevents nuisance lockouts during cold winter start up
  - Intelligent reset allows the unit to automatically restart after 5 minutes if a fault is no longer active

► **Remote Mounted Control (RMC):**

This feature provides the flexibility to connect a variety of appropriate remote mounted controllers to a low voltage terminal strip within the water-to-water unit. All water-to-water models come with freeze protection internal to the unit.

## Residential Water to Water Heat Pumps

Operating Limits			Cooling	Heating
Limit				
Minimum ambient air			50°F	40°F
Maximum ambient air			100°F	85°F
Rated ambient air			80°F	68°F
Antifreeze Protection Required LWT / EWT			-	< 40/< 50°F
Minimum water coil entering fluid			45°F	30*°F
Maximum water coil entering fluid			110°F	90°F
Rated water coil entering fluid	Water Loop application	Load	53.6°F	104°F
		Source	86°F	68°F
	Ground Loop application	Load	53.6°F	104°F
		Source	77°F (FL) 68°F (PL)	32°F (FL) 41°F (PL)
	Ground Water application	Load	53.6°F	104°F
		Source	59°F	50°F
Maximum operating water pressure			450psi/3,103kPA	
Minimum operating water flow rate			1.5 GPM per ton	

\*Antifreeze solution is required at these fluid temperatures.

Minimum / maximum limits are only for start up conditions. Only one parameter out of these three: entering source temperature, entering load temperature, or flow rate is permissible at minimum or maximum conditions at the same time. Refer to the extended performance data tables to determine allowable operating limits.

- \* Extended Range - Anti-freeze required
- Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Bosch Thermotechnology Corp.

\* Extended Range - Anti-freeze required  
 ■ Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

- \* Extended Range - Anti-freeze required
- Operation not recommended
- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

\* Extended Range - Anti-freeze required  
 ■ Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

\* Extended Range - Anti-freeze required  
 ■ Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

\* Extended Range - Anti-freeze required  
 ■ Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

- \* Extended Range - Anti-freeze required
- Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

# TW R-454B Model Series

## Residential Water to Water Heat Pumps

- \* Extended Range - Anti-freeze required
- Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

\* Extended Range - Anti-freeze required  
 ■ Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

- \* Extended Range - Anti-freeze required
- Operation not recommended
- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

\* Extended Range - Anti-freeze required

■ Operation not recommended

- Interpolation is permissible. Not extrapolation
- Tabulated unit performance does not include fan or pump power corrections required for AHRI/ ISO standard performance ratings.
- Unit performance may be interpolated. Extrapolation is not allowed.
- For conditions other than rating conditions provided, consult the BST selection software.
- Ratings below 40°F are with a methanol solution.

**DISCLAIMER:** The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

# TW R-454B Model Series

## Residential Water to Water Heat Pumps

### Capacity Data 122 - Part Load (Heating)

Source			Load																		
Entering Fluid Temp (°F)	Water Flow (GPM)	Pressure Drop (PSI)	Entering Fluid Temp (°F)	4 GPM						6 GPM						8 GPM					
				Heating Capacity (MBH)	Loop Rej/Add (MBH)	Pressure Drop (PSI)	Leaving Fluid Temp (°F)	Power Input (kW)	EER	Heating Capacity (MBH)	Loop Rej/Add (MBH)	Pressure Drop (PSI)	Leaving Fluid Temp (°F)	Power Input (kW)	EER	Heating Capacity (MBH)	Loop Rej/Add (MBH)	Pressure Drop (PSI)	Leaving Fluid Temp (°F)	Power Input (kW)	EER
